Pull-Down Stairs

ATTIC ACCESS LIDS

Installation Instructions

READ ALL WARNINGS AND INSTRUCTIONS BEFORE STARTING!

IMPORTANT WARNINGS

Do not stand on or place any objects on the Attic Access Lid. Attic Access Lid is not intended to support weight.

Never install the Attic Access Lid over or near defective or exposed wiring.

DIRECTIONS

STEP 1. Lay Attic Access Lid flat on floor, creased side up.

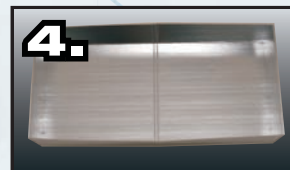

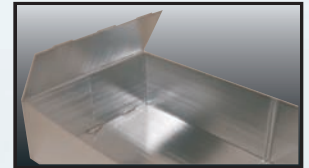

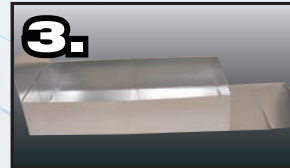

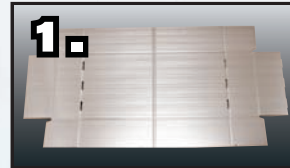

STEP 2. Fold both sides up and turn end flaps in.

STEP 3. Fold one end up and over end flaps and push locking tabs into slots.

STEP 4. Fold the other end up and over end flaps and place locking tabs into slots.

STEP 5. Place on top of Attic Door Frame or attic floor and close the door.

When entering attic, open attic door and set Attic Access Lid aside.
